

ADITYA KUMAR SINGH

Frontend Developer | React.js | Next.js | JavaScript | Redux | REST APIs

9555546971 | aditya9852046@gmail.com | **Portfolio:** adityasinghportfolia.in | **LinkedIn:** linkedin.com/in/adityasingh78 | **CodeChef:** codechef.com/users/aditya_singh48 | **LeetCode:** leetcode.com/aditya_singh98 | **GitHub:** github.com/aditya9852

SUMMARY

Frontend Developer skilled in building responsive, user-friendly web applications using React.js, Next.js, and JavaScript. Skilled in developing dynamic interfaces, integrating REST APIs, and optimizing performance to deliver seamless user experiences. Strong understanding of component-based architecture, state management, and cross-browser compatibility, with additional experience in backend technologies such as Spring Boot and microservices for full-stack development.

EDUCATION

- B.Tech (CSE) | Technocrats Institute of Technology & Science, Bhopal (MP) | CGPA 8.34 | 2021–2025
- 12th (CBSE Board) | DAV Public Sr. Sec. School Bina, Sonbhadra (UP) | 84.6% | 2020
- 10th (CBSE Board) | DAV Public Sr. Sec. School Bina, Sonbhadra (UP) | 91% | 2018

SKILLS SUMMARY

- Languages:** Java, Python, JavaScript
- Frontend:** React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap
- UI & Web Concepts:** Responsive Design, Component-Based Architecture, State Management, React Hooks (useState, useEffect, useReducer), Context API, Lazy Loading / Code Splitting, Cross-Browser Compatibility, UI Optimization
- Backend:** Spring Boot, REST APIs, Microservices, Spring Security, JWT Authentication, API Design
- Databases:** MySQL, PostgreSQL
- Tools & DevOps:** Docker, Git, Postman, Swagger, GitHub Actions (CI/CD)
- Cloud & Deployment:** Oracle Cloud, Vercel, Netlify, Render, Hostinger
- Architecture & Concepts:** System Design, Distributed Systems, OOP, Data Structures, API Security

EXPERIENCE

Python Developer Intern — Timoz Digital Era Pvt. Ltd., Bangalore

Oct 2024 – Dec 2024

- Collaborated with UI/UX and QA teams to build and optimize a real-time visualization system using Django, serving 10,000+ users, improving frontend integration and user interaction.
- Worked closely with frontend components and APIs to ensure smooth data flow, efficient rendering, and consistent performance across dynamic interfaces and real-time processing systems.
- Implemented testing and structured code review workflows, reducing production bugs by 90% while improving application stability, maintainability, and overall software reliability.

PROJECTS

Phoneless Biometric Payment System | React.js, Spring Boot, Java, MySQL, Microservices, Razorpay API, Docker | Jan 2026 – Mar 2026

- Developed a high-performance and responsive React.js interface using Tailwind CSS and Bootstrap, enabling seamless user interactions and optimized UI rendering across multiple devices.
- Designed and integrated REST APIs with token-based authentication, ensuring secure communication between frontend and backend services while improving application responsiveness and performance.
- Implemented UI optimization techniques to enhance load performance, improve usability, and maintain consistent design across devices using modern frontend styling frameworks.

E-commerce Web Application Using Microservices | React.js, Java, Spring Boot, MySQL, Docker, Razorpay API | Nov 2025 – Dec 2025

- Built a scalable and responsive e-commerce interface using React.js, Tailwind CSS, and Bootstrap, delivering smooth navigation, efficient state management, and seamless interactions.
- Integrated RESTful APIs with dynamic frontend components to enable real-time product updates, cart functionality, and secure payment workflows with consistent UI performance.
- Optimized UI performance and rendering efficiency, reducing perceived load times and enhancing responsiveness across devices through efficient component design and styling strategies.
